## Introduction

The NATO Communications and Information Agency (NCIA) hereby notifies the following Procurement Opportunity in accordance with the Procedure for NATO Competitive Procurement ([link](#)). This notification is issued to foster open and fair competition among eligible vendors from participating nations. This notification does not constitute a commitment to award a contract.

Vendors are invited to review the requirements described herein and to submit their bids in accordance with the instructions provided in this notification and subsequent solicitation documentation. All interested vendors are reminded that timely registration and compliance with eligibility requirements are essential, as deadlines for submission may not be extended. Vendors are advised to regularly check for updates to this notification.

This opportunity reflects NATO's commitment to transparency, equal treatment of suppliers, and the efficient delivery of goods, works, and services in support of NATO missions and participating nations.

All eligible and responsible sources may submit a quotation, bid, or proposal, which shall be considered by the NCIA."

### 1. Title of Procurement Opportunity

Provision of Initial Solutions for Enablement Support Services (ESS) Logistics Suite (LOGSUITE)

### 2. Description of Requirement

#### 2.1. Introduction

2.1.1. The NCIA is seeking to provide an ESS capability with a coherent suite of interoperable functional services to improve NATO logistics, military engineering and medical capabilities, enabling Supreme Allied Commander Europe (SACEUR), the NATO Command Structure (NCS) and the NATO Force Structure (NFS) to address shortfalls in sustainment services throughout the full spectrum of NATO operations, missions and activities.

2.1.2. This Notification of a Procurement Opportunity is for the provision of initial solutions for ESS LOGSUITE, increment 1, to address the most mature elements within the overall ESS scope, building on existing solutions to bridge until the full To-Be ESS capability is implemented, as summarised in 2.1.1.

2.1.3. The ESS LOGSUITE Increment 1 will enhance the existing NATO Logistics Functional Area Services (LOGFAS) and will implement the necessary changes to the NATO Common Operational Picture (NCOP) to support the enhanced Recognised Logistics Picture (RLP) and adaptations to Tools for Operations Planning Functional Area Service (TOPFAS) in support to the LOGFAS – TOPFAS integration.

#### 2.2. Project Scope

2.2.1. The project shall include the LOGFAS software enhancements, namely

2.2.1.1. LOGFAS interoperability improvements consisting of a set of new

web-based Logistics Command and Control (C2) Application Programming Interfaces (APIs).

2.2.1.2. LOGFAS functional enhancements addressing the provision for the Reinforcement and Sustainment Network (RSN) Analysis services.

2.2.1.3. Improved Logistics Visibility and Situational Awareness (SA) based on the LOGFAS service provision for the RLP ("LOGFAS Viewer").

2.2.1.4. Consolidated Infrastructure Information Management offering a centralized source for Geo Location data.

2.2.1.5. Improved service provision for LOGFAS integration with NCOP and TOPFAS.

**2.2.2.** The Vendor shall complement the software changes with the appropriate technical documentation and updated training materials.

**2.2.3.** The project shall contain in-service support during the period of performance of the contract and an optional Operating and maintenance phase once the project has been fully delivered.

**2.2.4.** Please note the modifications to NCOP and TOPFAS are *excluded* from this Procurement Opportunity.

**2.2.5.** The project shall meet two (2) key milestones:

2.2.5.1. Provisional System Acceptance (PSA) in December 2027; and

2.2.5.2. Final System Acceptance (FSA) in June 2028.

**2.2.6.** In addition, the successful Vendor is expected to provide a one-year warranty (starting at PSA) for all enhancements implemented as part of this project.

### **2.3. Technical constraints**

**2.3.1.** The software changes made under this project shall be performed with the programming languages and technologies already in use (e.g. .NET, C#, Angular, HTML5, CSS, PostgreSQL, gRPC, RESTFull).

**2.3.2.** The Vendor shall utilize the NATO Software Factory (NSF - Azure DevOps environment) for change control management, delivery of software development artefacts (including source code and documentation), and testing and validation of the software deliverables.

**2.3.3.** The development activities are expected to be performed from Vendor-owned equipment with asynchronous connection to the NSF.

**2.3.4.** The Purchaser (NCIA) will provide the necessary engineering artefacts for the Vendor to perform the activities under this project (e.g. source code, initial design document, NSF accounts).

## **3. Indicative Project Timeframes**

**3.1.** The indicative timeframes for the provision of ESS LOGSUITE increment 1 solutions

are as follows:

Milestone	Milestone Description	Duration	Anticipated Completion Date
T0	Anticipated Solicitation Release Date	N/A	Feb 2026
T1	Anticipated Contract Award	T0 + 5 Months	Jul 2026
